

User Name: _____

Date: _____

Facility: _____

Please select 2-3 patients with a variety of different characteristics and data. Perform several of the activities below for each patient and indicate whether the activity worked. Check **ONLY** the items that were reviewed during the alpha test. Completed forms are due Wednesday, April 25, 2001. Return completed electronic form(s) to Catherine Moore at ITSC (catherine.moore@mail.ihs.gov) or fax to 520-670-4785.

Activity	Action Perfor med	Worked	Did Not Work	Comments: (e.g., Does the data on the screen reflect RPMS accurately? Do you understand how to retrieve data? Are the buttons labeled clearly to navigate through the screens?)
Mark (X) only the items that were reviewed during the alpha test.
